

Be In the Know While You're On the Go

Niagara International Transportation Technology Coalition (NITTEC) is a coalition of agencies developed to help get you where you are going more safely and efficiently. NITTEC provides traffic and roadway information 24 hours a day, 7 days a week to improve traffic flows and enhance emergency assistance for motorists using the transportation system. Less time spent in congested traffic means less energy consumption, less air pollution, and reliable travel times for personal and business travel.

INTRODUCING THE NITTEC MOBILE APP

The free NITTEC app provides real-time travel information on your mobile device, allowing you to access traffic maps and camera images, travel advisories, border-crossing times, construction alerts, and more — anywhere, anytime. Plus, you can create customized routes and receive personalized alerts to keep you well informed for your daily commute or recreational travel.

HOW TO GET THE APP

The NITTEC app is available to download at major app stores.

NITTEC reminds drivers to refrain from using cell phones or mobile devices while operating a motor vehicle.
